 - Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 14d-2(b))
 - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 1.01. Entry into a Material Definitive Agreement.

On December 30, 2011, XOMA Corporation (formerly known as XOMA Ltd.; the “Company”) entered into a Loan Agreement (the “Loan Agreement”) with General Electric Capital Corporation (“GECC”) pursuant to which GECC agreed to make a term loan in an aggregate principal amount of \$10.0 million (the “Term Loan”) to XOMA (US) LLC (the “Borrower”), a wholly owned subsidiary of the Company, and upon execution of the Loan Agreement, GECC funded the Term Loan. The Term Loan is guaranteed by the Company and its two other principal subsidiaries, XOMA Ireland Limited and XOMA Technology Ltd. As security for their obligations under the Loan Agreement, the Company, the Borrower, XOMA Ireland Limited and XOMA Technology Ltd. each granted a security interest pursuant to a Guaranty, Pledge and Security Agreement (the “Security Agreement”) in substantially all of their existing and after-acquired assets, excluding their intellectual property assets (such as that relating to its gevokizumab and anti-botulism products).

The Term Loan will accrue interest at a fixed rate of 11.71% per annum. The Borrower is required to repay the principal amount of the Term Loan over a period of 42 consecutive equal monthly installments of principal and accrued interest, commencing on January 4, 2012 and thereafter on the first calendar day of each succeeding month until June 30, 2015 or such earlier date as the Term Loan is paid in full. The Term Loan matures and is due and payable in full on June 30, 2015, and at maturity of the Term Loan, the Borrower will make an additional payment equal to 5% of the Term Loan (the “Final Payment Fee”).

The Loan Agreement contains customary representations and warranties and customary affirmative and negative covenants, including restrictions on the ability to incur indebtedness, grant liens, make investments, dispose of assets, enter into transactions with affiliates and amend existing material agreements, in each case subject to various exceptions. In addition, the Loan Agreement contains customary events of default that entitle GECC or such other lenders that are party to the Loan Agreement from time to time (the “Lenders”) to cause any or all of the indebtedness under the Loan Agreement to become immediately due and payable. The events of default include any event of default under a material agreement or certain other indebtedness.

The Borrower may voluntarily prepay the Term Loan in full, but not in part, and any voluntary and certain mandatory prepayments are subject to a prepayment premium of 3% in the first year of the loan, 2% in the second year and 1% thereafter, although mandatory prepayments in connection with entering into certain exclusive licenses, granting certain negative pledges or incurring certain collaboration-related indebtedness will not be subject to such prepayment premium. The Borrower will also be required to pay the Final Payment Fee in connection with any voluntary or mandatory prepayment.

The proceeds of the Term Loan, after payment of lender fees and expenses, are approximately \$9.3 million. The Company anticipates that the net proceeds will be used for working capital and general corporate purposes.

On December 30, 2011, pursuant to the Loan Agreement, the Company issued to an affiliate of GECC warrants to purchase up to an aggregate of 263,158 shares of the Company's common stock at an exercise price equal to \$1.14 per share (the "Warrants"). The Warrants are immediately exercisable and will expire on December 30, 2016.

The foregoing descriptions of the Loan Agreement, the Term Loan, the Security Agreement and the Warrants do not purport to be complete and are qualified in their entirety by reference to the Loan Agreement, the Promissory Note issued to GECC, the Security Agreement and the Warrant. A copy of the press release announcing the Loan Agreement is attached hereto as Exhibit 99.1 and incorporated herein by reference.

Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

The information set forth in Item 1.01 of this Current Report on Form 8-K that relates to the creation of a direct financial obligation of the Company is incorporated by reference into this Item 2.03.

Item 3.02. Unregistered Sales of Equity Securities.

The information set forth in Item 1.01 of this Current Report on Form 8-K that relates to the issuance of the Warrants is incorporated by reference into this Item 3.02.

The offer and sale of the Warrants have not been registered under the Securities Act of 1933, as amended (the "Securities Act"). The Warrants were offered and sold to an accredited investor in reliance upon exemptions from registration under Section 4(2) of the Securities Act and Rule 506 of Regulation D promulgated thereunder.

Item 9.01. Financial Statements and Exhibits.

99.1. Press Release dated January 3, 2012.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

[Press Release]

XOMA Secures \$10 Million Term Loan

BERKELEY, Calif., January 3, 2012 — XOMA Corporation (Nasdaq: XOMA), a leader in the discovery and development of antibody therapeutics, announced that it has entered into a \$10.0 million 42-month secured term loan agreement with GE Capital, Healthcare Financial Services. The funds will be used for advancement of gevokizumab (XOMA 052), XOMA's lead clinical product candidate, and for general corporate purposes. Interest on the loan is payable at 11.71% per annum. In addition, XOMA has issued warrants to the lender to purchase 263,158 shares of its common stock exercisable at \$1.14 per share.

"The increase in cash position provided by this debt financing is part of our overall strategy to fund gevokizumab development and other programs toward potential value-creating milestones," said Fred Kurland, XOMA's Vice President and Chief Financial Officer.

About XOMA

XOMA is a leader in the discovery and development of novel antibody therapeutics. The company's proprietary product pipeline includes:

- Gevokizumab (XOMA 052), a humanized antibody that binds to the inflammatory cytokine interleukin-1 beta, or IL-1 beta. XOMA plans to enter gevokizumab into Phase 3 clinical development in non-infectious uveitis affecting the intermediate and/or posterior segments of the eye, and has initiated a Phase 2 proof-of-concept trial for the treatment of moderate and severe acne vulgaris. Les Laboratoires Servier is XOMA's development and commercialization partner for gevokizumab.
 - A preclinical pipeline with candidates in development for autoimmune, cardio-metabolic, inflammatory and oncological diseases. Among these are two new classes of fully human monoclonal antibodies that activate (XMetA) or sensitize (XMetS) the insulin receptor in vivo, which represent distinct new therapeutic approaches to the treatment of patients with diabetes.
 - Antibodies against botulinum toxins, led by XOMA 3AB, a novel combination of three antibodies to prevent and treat botulism poisoning caused by exposure to botulinum neurotoxin Type A, among the most deadly bioterror threats. XOMA 3AB is in a Phase 1 clinical trial sponsored by the National Institute of Allergy and Infectious Diseases (NIAID) of the National Institutes of Health (NIH). Development of these antibodies has been funded in whole or in part with funds from NIAID, NIH, Department of Health and Human Services under Contract No. HHSN266200500004C, Contract No. HHSN266200600008C, Contract No. HHSN272200800028C, Contract No. HHSN266200600011C, Contract No., HHSN272200800026C, and Contract No.HHSN2722011031C.
-

XOMA has a premier antibody discovery and development platform that incorporates an unmatched collection of antibody phage display libraries and proprietary optimization and expression and manufacturing technologies that it uses for its own pipeline and in collaborations with pharmaceutical and biotechnology companies. XOMA's fully integrated product development infrastructure extends from preclinical science to approval and is located in Berkeley, California. For more information, please visit www.xoma.com.

About GE Capital, Healthcare Financial Services

With in-depth industry knowledge and expertise, GE Capital, Healthcare Financial Services has provided more than \$60 billion in financing over 10 years to companies in over 40 healthcare sub-sectors including senior housing, hospitals, medical offices, outpatient services, pharmaceuticals and medical devices. Our team of professionals creates business and financial solutions tailored to meet the individual needs of our customers. For more information, visit gecapital.com/healthcare.

Forward-Looking Statements

Certain statements contained herein concerning product development or that otherwise relate to future periods are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements are based on assumptions that may not prove accurate. Actual results could differ materially from those anticipated due to certain risks inherent in the biotechnology industry and for companies engaged in the development of new products in a regulated market.

These risks, including those related to the generally unstable nature of current economic and financial market conditions; the results of discovery and pre-clinical testing; the timing or results of pending and future clinical trials (including the design and progress of clinical trials; safety and efficacy of the products being tested; action, inaction or delay by the FDA, European or other regulators or their advisory bodies; and analysis or interpretation by, or submission to, these entities or others of scientific data); changes in the status of existing collaborative or licensing relationships; the ability of collaborators, licensees and other third parties to meet their obligations and their discretion in decision-making; XOMA's ability to meet the demands of the United States government agency with which it has entered into its government contracts; competition; market demand for products; scale-up, manufacturing and marketing capabilities; availability of additional licensing or collaboration opportunities; international operations; share price volatility; XOMA's financing needs and opportunities; uncertainties regarding the status of biotechnology patents; uncertainties as to the costs of protecting intellectual property; and risks associated with XOMA's status as a Bermuda company, are described in more detail in XOMA's most recent filing on Form 10-K and in other SEC filings. Consider such risks carefully when considering XOMA's prospects.
