XOMA CORPORATION
PROXY STATEMENT

TO THE STOCKHOLDERS:

The enclosed proxy is solicited on behalf of the Board of Directors (the "Board") of XOMA Corporation, a Delaware corporation ("XOMA" or the "Company"), for use at the annual meeting of stockholders to be held at the Company's offices at 2910 Seventh Street, Berkeley, California, on May 23, 2013, at 9:00 a.m. local time, or any adjournment or postponement thereof, at which stockholders of record holding shares of Common Stock on March 28, 2013, will be entitled to vote. On March 28, 2013, the Company had issued and outstanding 82,887,828 shares of common stock, par value \$0.0075 per share ("Common Stock"). Holders of Common Stock are entitled to one vote for each share held. All references to shares of Common Stock or stockholders of the Company in this proxy statement that relate to a date or period prior to the Company's change of jurisdiction of incorporation from Bermuda to Delaware that became effective on December 31, 2011 should be considered to be references to the Company's Common Shares or shareholders of the Company as it was incorporated in Bermuda.

In accordance with the rules of the Securities and Exchange Commission, or SEC, instead of mailing a printed copy of our proxy materials, including our annual report, to each stockholder of record, we have decided to provide access to these materials via the Internet to all of our stockholders. This reduces the amount of paper necessary to produce these materials, as well as costs associated with mailing these materials to all stockholders. Accordingly, on or about April 11, 2013, we will begin mailing a Notice Regarding Internet Availability of Proxy Materials, or the Notice, to stockholders of record holding as of March 28, 2013, and will have posted our proxy materials on the website referenced in the Notice (<http://wfss.mobular.net/wfss/xoma/>). As more fully described in the Notice, all stockholders may choose to access our proxy materials on the website referred to in the Notice, and any stockholder not receiving a printed set of our proxy materials may request to receive a printed set of such materials.

All registered stockholders can appoint a proxy by paper proxy, by telephone or by Internet by following the instructions included with their proxy card. Stockholders whose shares of Common Stock are registered in the name of a bank or brokerage firm should follow the instructions provided by their bank or brokerage firm on voting their shares of Common Stock. Stockholders whose shares of Common Stock are registered in the name of a bank or brokerage firm participating in the Broadridge Financial Services, Inc. online program may appoint a proxy electronically through the Internet. Instruction forms will be provided to stockholders whose bank or brokerage firm is participating in Broadridge's program. Signing and returning the proxy card or submitting the proxy by telephone or through the Internet does not affect the right to vote in person at the annual meeting.

In the case of registered stockholders, a proxy may be revoked at any time prior to its exercise by (a) giving written notice of such revocation to the Secretary of the Company at the Company's principal office, 2910 Seventh Street, Berkeley, California 94710, (b) appearing and voting in person at the annual meeting, (c) properly completing and executing a later-dated proxy and delivering it to the Company at or before the annual meeting, or (d) retransmitting a subsequent proxy by telephone or via the Internet before the annual meeting. Presence without voting at the annual meeting will not automatically revoke a proxy, and any revocation during the meeting will not affect votes previously taken. Stockholders whose shares of Common Stock are registered in the name of a bank or brokerage firm should follow the instructions provided by their bank or brokerage firm on revoking their previously appointed proxies. Abstentions and broker non-votes are each included in the number of shares of Common Stock present and entitled to vote for purposes of establishing a quorum but are not counted in tabulations of the votes cast on proposals presented to stockholders.

The Company will bear the entire cost of solicitation, including preparation, assembly, printing, and delivery of this proxy statement, the proxy card, and any additional material furnished to stockholders. Copies of solicitation material will be furnished to brokerage houses, fiduciaries, and custodians holding in their names shares of Common Stock that are beneficially owned by others to forward to such beneficial owners. The

solicitation of proxies may be supplemented by one or more of telephone, telegram, or personal solicitation by directors, officers, or employees of the Company for no additional compensation. Stockholders appointing a proxy through the Internet should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, which will be borne by the stockholders.

COMPENSATION OF EXECUTIVE OFFICERS

Compensation Discussion and Analysis

The primary objectives of the Company's compensation program are to enable the Company to attract, motivate and retain outstanding individuals and align their success with that of the Company's stockholders over the long-term through the creation of stockholder value and achievement of strategic corporate objectives that are fundamental to our business model. We attract and retain executives by benchmarking against peer companies in our industry to ensure that our compensation packages remain competitive. This practice is discussed in greater detail below under the heading "Benchmarking." When creating an executive's overall compensation package, the different elements of compensation are considered in light of the role the executive will play in our achieving near-term and longer-term goals as well as the compensation packages provided to similarly situated executives at peer companies. We also tie short- and long-term cash and equity rewards to the achievement of measurable corporate and individual performance criteria to create incentives that we believe enhance executive performance. Such performance criteria vary depending on individual executives' roles, but include value-adding achievements such as revenue generation, cost reduction, gains in production efficiency, and timely completion of undertakings. None of our employees are covered by a pension plan or other similar benefit plan that provides for payments or other benefits at, following, or in connection with retirement.

Benchmarking

The Compensation Committee is composed entirely of non-employee directors under Rule 16b-3 of the Exchange Act and outside directors under Section 162(m). The Compensation Committee has the authority under its charter to engage the services of outside advisors, experts and others to assist the Compensation Committee. In accordance with this authority, the Compensation Committee has retained the services of Compensia, an independent consulting firm that specializes in executive compensation consulting (the "Consultant"), to assist the Compensation Committee in evaluating the Company's executive compensation program against the relevant market and to review executive compensation changes. The Consultant looked at incentive compensation, long-term stock options, restricted stock units ("RSUs") and benefits. No other services were provided by the Consultant.

At the direction of the Compensation Committee, management created a survey (the "Executive Compensation Survey") which compared the Company's executive pay levels to those of a peer group of 15 companies as reported in the Radford Global Life Sciences Survey. The peer group was developed by targeting primarily companies with products in Phase 2 and Phase 3 clinical trials with a range of market capitalizations. The companies that comprised the peer group are: Affymax, Alnylam Pharmaceuticals, ArQule, Array BioPharma, BioCryst Pharmaceuticals, Dyax, Immunomedics, Infinity Pharmaceuticals, Neurocrine Biosciences, Osiris Therapeutics, Repligen, Targacept, Trius Therapeutics, Vical and XenPort.

As noted above, the Compensation Committee considers various benchmarks (i.e., the 25th percentile, the 50th percentile and the 75th percentile) based on the Executive Compensation Survey and chooses a benchmark for a particular year based on the level it deems most appropriate for the Company. For 2012, the Compensation Committee chose the 50th percentile as the benchmark. This process is performed to ensure that total compensation is competitive within the industry and appropriate when certain levels of performance are achieved. If, based on this evaluation, the Compensation Committee determines that the Company's current compensation levels are not appropriate or tailored to our compensation objectives, then the Compensation Committee may adjust the applicable compensation levels and targets accordingly.

As part of the benchmarking process, the Compensation Committee recognizes the practical reality that job responsibilities of persons with similar titles may vary significantly from company to company and that a person's title is not necessarily descriptive of a person's duties. The Compensation Committee considers the scope and complexity of executive positions within the Executive Compensation Survey and compares these

positions to the scope and complexity of our executive positions. The result is an assessment of the compensation being paid to our executives in light of the compensation being paid to persons performing duties of similar scope and complexity at the companies participating in the Executive Compensation Survey. The Compensation Committee uses this assessment to assist it in making decisions regarding appropriate compensation levels for our executive positions. The underlying principle of the evaluation methodology is to focus on identifying those positions that have a scope and complexity of responsibilities that are comparable to those duties exercised by each of our particular executives.

Compensation Components

Base Salary. The base salary paid to an officer is determined on the basis of the individual's overall experience, responsibility, performance and compensation level in his or her prior position (for newly hired officers), the individual's overall performance and compensation level at the Company during the prior year (for current employees), the compensation levels of peer companies (including the biotechnology companies listed above) and other labor markets in which the Company competes for employees, the performance of the Company's Common Stock during the prior fiscal year and such other factors as may be appropriately considered by the Board, by the Compensation Committee and by management in making its proposals to the Compensation Committee.

Long-Term Incentive Program. Long-term incentive compensation principally takes the form of incentive and non-qualified option grants and awards of RSUs pursuant to stockholder-approved equity-based compensation plans. These grants and awards are designed to promote the convergence of long-term interests between the Company's key employees and its stockholders; specifically, the value of options granted and RSUs awarded will increase or decrease with the value of the Company's Common Stock. In this manner, key individuals are rewarded commensurately with increases in stockholder value. Option grants also typically include a 4-year vesting period, and RSU awards typically include a 3-year vesting period, to encourage continued employment. The size of a particular option grant or RSU award is determined based on the individual's position and contribution to the Company.

For grants and awards during 2012, the number of options granted and RSUs awarded were determined based on employee performance and perceived potential, the numbers of options granted to such individuals in the previous fiscal year, the aggregate number of options and RSUs held by such individual, the number of options granted and RSUs awarded to similarly situated individuals in the pharmaceutical and biotechnology industries, the price of the Company's Common Stock relative to other companies in such industries and the resulting relative value of such options and RSUs. No specific measures of corporate performance were considered.

In February of 2012, the Company awarded 54,615 RSUs to Dr. Paul D. Rubin. In May of 2012, the Board approved the promotion of Dr. Rubin to the position of Senior Vice President, Research and Development and Chief Medical Officer, effective April 24, 2012, and granted options to purchase 24,600 shares of Common Stock and awarded 14,000 RSUs.

In July of 2012, the Company granted stock options and awarded RSUs to officers of the Company. Mr. Varian was granted options to purchase 391,805 shares of Common Stock and awarded 283,721 RSUs. Dr. Scannon was granted options to purchase 67,381 shares of Common Stock and awarded 48,793 RSUs. Dr. Rubin was granted options to purchase 110,813 shares of Common Stock and awarded 80,244 RSUs. Mr. Kurland was granted options to purchase 78,978 shares of Common Stock and awarded 57,191 RSUs. Mr. Wells was granted options to purchase 70,841 shares of Common Stock and awarded 51,298 RSUs. These awards were determined after consideration by the Compensation Committee of the executives' ownership targets and the Company's progress toward its business objectives.

Historically, option grants intended as long-term incentive compensation have been made pursuant to the Company's 1981 Share Option Plan (the "Option Plan") and Restricted Share Plan (the "Restricted Plan"). In

May of 2010, the Compensation Committee and the full Board adopted, and in July of 2010 the Company's stockholders approved, a new equity-based compensation plan, the XOMA Corporation 2010 Long Term Incentive and Stock Award Plan, which was amended with stockholder approval in May of 2011 and amended and restated in December of 2011 to give effect to the Company's change of jurisdiction of incorporation from Bermuda to Delaware (the "Long Term Incentive Plan"). The Long Term Incentive Plan is intended to consolidate the Company's long-term incentive compensation under a single plan, by replacing the Option Plan, the Restricted Plan and the 1992 Directors Share Option Plan (the "Directors Plan") going forward and to provide a more current set of terms pursuant to which to provide this type of compensation.

Cash Bonus Plans.

CEO Incentive Compensation Plan. In 2004, the Compensation Committee, the Board and the stockholders approved the CEO Incentive Compensation Plan (the "CICP") in order to make the CEO's compensation more commensurate with that of industry peers and because the Compensation Committee believed that it was not appropriate to include the CEO in the Management Incentive Compensation Plan given the CEO's active role in administering that plan.

Only our CEO is eligible to participate in the CICP and, depending on his or her performance and that of the Company, earn incentive compensation. As soon as practicable after the end of each fiscal year (the "Plan Period"), the Compensation Committee recommends to the Board and the Board determines whether and to what extent certain pre-established Company objectives for that Plan Period ("Company Objectives") have been met, each Company Objective having been assigned a percentage toward completion of the Company Objectives overall (each, a "Achievement Percentage"). For each Plan Period, unless 70% of the Company Objectives for that Plan Period have been met, no incentive compensation will be awarded. The Board retains considerable discretion both in determining the extent to which the Company Objectives are achieved and in considering additional factors which may influence its overall determinations.

The incentive compensation under the CICP is weighted based 50% on meeting Company Objectives, 30% based on CEO evaluation form criteria (relating to leadership, strategic and succession planning, financial matters, human resources, communications and external and board relations) and 20% based on an evaluation of individual performance objectives by the Compensation Committee. The award opportunity range for the CEO expressed as a percentage of his or her base salary is as follows: minimum award opportunity—25%; target award opportunity—50%; and maximum award opportunity—75%, in each case, of base salary.

The performance of the CEO is typically rated as soon as practicable following the conclusion of the Plan Period. Distribution of incentive compensation is generally made in February or March of the succeeding year after the Plan Period. The incentive awards granted under the CICP are payable in cash.

Management Incentive Compensation Plan. Certain employees are compensated through the Management Incentive Compensation Plan (the "MICP"), in which officers (other than the CEO) and employees who have the title of Senior Director, Director or Manager, as well as certain additional discretionary participants chosen by the CEO, are eligible to participate. Under the MICP, at the beginning of each Plan Period, the Board (with advice from the Compensation Committee) establishes a target incentive compensation pool, which is then adjusted at year-end to reflect the Company's performance in achieving the Company Objectives.

After each Plan Period, the Board, based on the recommendation of the Compensation Committee, makes a determination as to the performance of the Company and MICP participants in meeting the Company Objectives and individual objectives for that Plan Period, which are determined from time to time by the Board in its sole discretion. Awards to MICP participants vary depending upon the level of achievement of the Company Objectives, the size of the incentive compensation pool and the MICP participants' base salaries and performance during the Plan Period as well as their expected ongoing contribution to the Company. The Company must meet a minimum percentage of the Company Objectives (currently 70%) for a particular Plan Period before any

awards are made under the MICP for that Plan Period. The Board retains considerable discretion both in determining the extent to which the Company Objectives are achieved and in considering additional factors which may influence its overall determinations.

For officers, including the executive officers named in the "Summary Compensation Table" below other than the CEO, the incentive compensation under the MICP is weighted based 50% on meeting Company Objectives, 30% based on individual objectives and 20% based on a discretionary evaluation by the CEO. The target awards for these officers as a percentage of base salary range from 30% to 40%, with an award opportunity range of 15% to 60% of base salary. For other MICP participants, the incentive compensation is weighted based either 40% or 30% on meeting Company Objectives, either 40% or 50% on individual objectives and, in all cases, 20% on a discretionary evaluation by the CEO. The award opportunities for these participants as a percentage of base salary range from a minimum of 5% to a maximum of 37.5% of base salary, depending on among other things the participants' position within the Company.

The performance of the MICP participants is typically rated as soon as practicable following the conclusion of the Plan Period. Distribution of incentive compensation is generally made in February or March of the succeeding year after the Plan Period. Awards under the MICP are payable in cash.

As of December 31, 2012, 111 individuals were determined to be eligible to participate in the MICP, including four of the executive officers named in the "Summary Compensation Table" below other than Messrs. Varian and Margolin.

Bonus Compensation Plan. Employees who are not eligible to participate in the CICP or the MICP may be also compensated through the Bonus Compensation Plan (the "BCP"). Under the BCP, at the beginning of each Plan Period, the Board (with advice from the Compensation Committee) establishes a target incentive compensation pool, which is then adjusted at year-end to reflect the Company's performance in achieving the Company Objectives.

After each Plan Period, the Board, based on the recommendation of the Compensation Committee, makes a determination as to the performance of the Company and BCP participants in meeting the Company Objectives, which are determined from time to time by the Board in its sole discretion. Awards to BCP participants vary depending upon the level of achievement of the Company Objectives, the size of the incentive compensation pool and the BCP participants' base salaries. The Company must meet a minimum percentage of the Company Objectives (currently 70%) before any awards are made under the BCP. Awards under the BCP are payable in cash.

As of December 31, 2012, 52 individuals were determined to be eligible to participate in the BCP.

Bonus Determinations for 2012. In February of 2013, the Board concluded that the second, third, fifth and sixth Corporate Objectives had been achieved, that the first and fourth had been exceeded, and that the seventh had not been achieved.

In addition to the foregoing Company Objectives, the Compensation Committee also took into consideration the Company's development and completion of a long-term strategic plan. After evaluating the relevant facts and circumstances, the Board concluded that the minimum percentage (70%) of the Company Objectives had been exceeded for the 2012 Plan Period and that as a result awards could be made under the MICP for that Plan Period.

Under the CICP, Mr. Varian's individual objectives for 2012 were identical to the Company Objective described above.

Individual objectives for 2012 under the MICP for Dr. Scannon were to: (1) create and lead the XOMA Target Committee, (2) carry out his role in connection with the sixth Corporate Objective described above with respect to initiation of new antibody discovery and development programs, (3) carry out his role in connection with the sixth Corporate Objective described above with respect to leading the Company's government affairs program to seek additional funding relevant to preclinical activities, (4) carry out his role in connection with the second Corporate Objective described above with respect to leading the government affairs program to seek additional funding for gevokizumab proof-of-concept studies, and (5) carry out his role in connection with the seventh Corporate Objectives described above with respect to revenue generation from antibody technology and preclinical pipeline deals. In February of 2013, the CEO determined and the Compensation Committee concurred that Dr. Scannon had achieved the first, second and third objectives, did not achieve his fifth objective, and partially achieved the fourth objective.

Individual objectives for 2012 under the MICP for Dr. Rubin were to: (1) carry out his role in connection with the second Corporate Objective described above, (2) carry out his role in connection with fifth Corporate Objective described above with respect to the clinical aspects thereof, (3) carry out his role in connection with the first Corporate Objective described above, and (4) carry out his role in connection with the sixth Corporate Objective described above with respect to clinical assessments. In February of 2013, the CEO determined and the Compensation Committee concurred that Dr. Rubin had partially achieved the first such objective, exceeded the second and third such objectives, and achieved the fourth such objective. In addition, the CEO and the Compensation Committee took into consideration the Dr. Rubin's assumption of leadership for all of Research and Development in early 2012.

Individual objectives for 2012 under the MICP for Mr. Kurland were to: (1) carry out his role in connection with the first Corporate Objective described above with respect to outside sources of cash and operational expenses, (2) carry out his role in connection with the first Corporate Objective described above with respect to increasing XOMA's visibility in the institutional investment community and increasing institutional holdings. (3) carry out his role in connection with the fourth Corporate Objective, (4) ensure appropriate financial and business controls are in place, and (5) maintain appropriate budget spending levels. In February of 2013, the CEO determined and the Compensation Committee concurred that Mr. Kurland had achieved the first, third, fourth, and fifth such objectives and exceeded the second such objectives. In addition, the CEO and the Compensation Committee took into consideration Mr. Kurland's success in obtaining additional financings and also managing the Legal Department from July 2012.

Individual objectives for 2012 under the MICP for Mr. Wells were to: (1) strengthen organizational capability and effectiveness, (2) ensure effective planning and implementation of the 2012 streamlining initiative, (3) implement a formal succession planning process for key positions, (4) complete migration to a new enterprise resource planning system, (5) carry out his role in connection with the fourth Corporate Objective described above, and (6) ensure adherence to information technology controls. In February of 2013, the CEO determined and the Compensation Committee concurred that Mr. Wells had exceeded the second objective and, other than the fourth, achieved the remaining objectives. In addition, the CEO and the Compensation Committee took into consideration Mr. Wells' success in supporting the Company's internal restructuring throughout 2012.

As to the portion of Mr. Varian's bonus based on CEO evaluation form criteria and on an evaluation of the CEO's individual performance objectives, the Compensation Committee determined to include additional

percentages of 43.8% and 30%, respectively, of Mr. Varian's target bonus amount as portions of his bonus. The CEO determined and the Compensation Committee concurred to include 20% of each other named executive officer's target bonus amount as the portion of such officer's bonus based on a discretionary evaluation.

As a result of retirement in August of 2012 due to the Company's determination to restructure its legal services function, and pursuant to his employment agreement at that time, Mr. Margolin was entitled to receive as severance, in 2013, 0.75 times his then-current base salary and a pro-rated portion of his then-current target bonus. Because this was a contractual obligation of the Company, no determination of Mr. Margolin's achievement of the Company Objectives was required to be made for this purpose.

The evaluation process and resulting determinations described above resulted in cash bonus payments under the CICP and the MICP to the executive officers named in the "Summary Compensation Table" below, other than Mr. Margolin, for 2012 as follows:

<u>Name</u>	<u>Base Salary</u>	<u>Target Bonus Percentage</u>	<u>Target Bonus Amount</u>	<u>Actual Bonus Percentage</u>	<u>Actual Bonus Amount</u>

Other Compensation. The Company maintains broad-based benefits and perquisites that are provided to all employees, including health insurance, life and disability insurance, vision and dental insurance, a 401(k) plan and temporary housing and other living expenses for relocated employees. The Company also maintains an Employee Stock Purchase Plan, designed to give employees an opportunity to purchase shares of Common Stock through payroll deductions, thereby encouraging employees to share in the economic growth and success of the Company.

Tax Treatment. Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") generally limits the deductible amount of annual compensation paid to certain individual executive officers (i.e., the chief executive officer and the four other most highly compensated executive officers of the Company) to no more than \$1 million. However, qualifying performance-based compensation will be excluded from the \$1 million cap on deductibility. We consider tax deductibility under Section 162(m) as a factor in our compensation decisions. However, we retain the ability to authorize certain compensation payments that may not satisfy the tax deductibility requirements under Section 162(m) if it is determined that such payments are appropriate to attract and/or retain executive talent or otherwise promote our corporate objectives. The Company and the Compensation Committee will continue to review tax consequences as well as other relevant considerations in connection with compensation decisions.

Compensation Risk Assessment

We believe that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on our Company. We believe that our approach to goal-setting, setting of targets with payouts at multiple levels of performance, and evaluation of performance results assist in mitigating excessive risk-taking that could harm our value. We believe we have allocated our compensation among base salary and short- and long-term compensating target opportunities in such a way as not to encourage excessive risk-taking.

Change of Control. A “change of control” is defined in the Change of Control Agreements as the occurrence of any of the following events: (i) a merger, amalgamation or acquisition in which the Company is not the surviving or continuing entity, except for a transaction the principal purpose of which is to change the jurisdiction of the Company’s organization; (ii) the sale, transfer or other disposition of all or substantially all of the assets of the Company; (iii) any other reorganization or business combination in which fifty percent (50%) or more of the Company’s outstanding voting securities are transferred to different holders in a single transaction or series of related transactions; (iv) any approval by the stockholders of the Company of a plan of complete liquidation of the Company; (v) any “person” (as such term is used in Sections 13(d) and 14(d) of the Exchange Act becoming the “beneficial owner” (as defined in Rule 13d-3 under said Act), directly or indirectly, of securities of the Company representing more than fifty percent (50%) of the total voting power represented by the Company’s then outstanding voting securities; or (vi) a change in the composition of the Board, as a result of which fewer than a majority of the directors are incumbent directors.

The options shall continue to be subject to all other terms and conditions of the Company’s option plans and the applicable option agreements between the employee and the Company.

Outplacement Program. If a named executive officer’s employment is involuntarily terminated within one month prior to signing an agreement for a change of control or 18 months after a change of control, the named executive officer will immediately become entitled to participate in a twelve month executive outplacement program provided by an executive outplacement service, at the Company’s expense not to exceed \$15,000.

Compensation of Directors

The primary objectives of the Company's director compensation program are to enable the Company to attract, motivate and retain outstanding individuals and align their success with that of the Company's stockholders through the creation of stockholder value. We attract and retain directors by benchmarking against companies in our industry of similar size to ensure that our director compensation packages remain competitive. The different elements of director compensation are considered in light of the compensation packages provided to similarly situated directors at peer companies.

The Nominating & Governance Committee has retained the services of the Consultant to assist in evaluating the Company's director compensation program against the relevant market. At the direction of the Nominating & Governance Committee, management created a survey (the "Director Compensation Survey") which compared the Company's director pay levels to those of the same peer group of companies used in the Executive Compensation Survey. The benchmarking process for director compensation used by the Nominating & Governance Committee based on the Director Compensation Survey is substantially similar to the process used by the Compensation Committee for evaluating executive compensation described above under "Compensation Discussion and Analysis."

The table below sets forth the 2012 compensation for members of the Board who were non-employee directors at any time during 2012. Mr. Varian (CEO) and Dr. Scannon (Executive Vice President and Chief Scientific Officer) are not listed in this table because they received no additional compensation for services as members of the Board or its committees.

ITEM 1—ELECTION OF DIRECTORS

The Company's directors are elected annually to serve until the next annual meeting of stockholders or until their successors are elected, or until their death, resignation or removal. The nominees for the Board are set forth below. Unless otherwise instructed, the proxy holders will vote all proxies received by them in the accompanying form for the nominees for directors listed below. In the event any nominee should become unavailable for election due to an unexpected occurrence, the proxies will be voted for any such substitute nominee as may be designated by the present Board to fill the vacancy. In the event that additional persons are nominated for election as directors, the proxy holders intend to vote all proxies received by them for the nominees listed below. Each person nominated for election has agreed to serve if elected, and management has no reason to believe that any of the nominees listed below will be unable to serve. The nine candidates receiving the highest number of affirmative votes of the shares of Common Stock entitled to vote at the annual meeting will be elected as directors of the Company.

In the past, banks and brokerage firms were permitted under applicable rules to vote shares beneficially owned by their clients even when they had not received instructions on how to vote those shares regarding certain "discretionary" matters, including uncontested director elections. Due to recent changes in these rules, uncontested director elections are no longer "discretionary," so if your shares are registered in the name of a bank or brokerage firm, you *must* follow your bank's or brokerage firm's instructions in order to participate in the election of our directors.

Board Matters

Board Leadership Structure and Risk Oversight

The Company currently separates the positions of CEO and Chairman of the Board. Mr. Van Ness has served as Chairman of the Board since August 2011. The CEO is responsible for setting the strategic direction for the Company and the day to day leadership and performance of the Company. The Chairman of the Board is responsible for presiding at all executive sessions of the Board, consulting with the CEO on Board and committee meeting agendas, acting as a liaison between management and the independent directors, including maintaining frequent contact with the CEO and advising him on the efficiency of Board meetings, facilitating teamwork and communication between the independent directors and management, as well as additional responsibilities. The independent directors believe that Mr. Van Ness's in-depth knowledge of the biopharmaceutical industry and vision for its development, as well as his leadership skills and style, make him the best-qualified director to serve as Chairman of the Board. In light of the separation of the CEO and Chairman of the Board positions, the Board determined that a separate position of Lead Independent Director was no longer necessary.

The Board is responsible for consideration and oversight of risks facing the Company and is responsible for ensuring that material risks are identified and managed appropriately. As set forth in the Audit Committee charter, the Audit Committee meets periodically with management in order to review the Company's major financial exposures and the steps management has taken to monitor and control such exposures. In fulfilling this role, the Audit Committee conducts periodic risk assessments and reports its findings to the full Board. The Audit Committee also oversees related-party transactions.

Independence of the Board of Directors

As required under the NASDAQ Stock Market ("NASDAQ") listing standards, a majority of the members of a listed company's board of directors must qualify as "independent," as affirmatively determined by the board of directors. In addition, applicable NASDAQ rules require that, subject to specified exceptions, each member of a listed company's audit, compensation and nominating committees be independent within the meaning of applicable NASDAQ rules. Audit committee members must also satisfy the independence criteria set forth in Rule 10A-3 under the Exchange Act.

Our Board undertook a review of the independence of each director and considered whether any director has a material relationship with us that could compromise his or her ability to exercise independent judgment in carrying out his or her responsibilities. As a result of this review, our Board determined that each of Messrs. Bowes, Hutt, Limber, Van Ness, Walbert and Wyzomierski qualifies as an "independent" director within the meaning of the NASDAQ rules. Accordingly, a majority of our directors are independent, as required under applicable NASDAQ rules. Our non-employee directors have been meeting, and we anticipate that they will continue to meet, in regularly scheduled executive sessions at which only non-employee directors are present.

Board Meetings

During the fiscal year ended December 31, 2012, the Board held 9 meetings. Each Board member attended at least 75% of the aggregate number of meetings of the Board and the committees of the Board on which he served that were held during the last fiscal year. Directors are encouraged to attend the Company's annual meetings of stockholders where practicable. All of the current directors attended last year's annual meeting of stockholders.

The Board has standing audit, compensation and nominating & governance committees.

Compensation Committee

The Compensation Committee is responsible for recommending and reviewing the compensation, including options and perquisites, of the Company's officers and other employees. The Compensation Committee, currently consisting of Messrs. Wyzomierski (Chairman), Limber and Van Ness, held 4 meetings during 2012.

The Board has adopted a written charter for the Compensation Committee, a copy of which is available on the Company's website at www.xoma.com. See "Compensation Committee Report on Executive Compensation" and "Compensation Discussion and Analysis."

Compensation Committee Interlocks and Insider Participation

None of the members of the Compensation Committee who served on the Compensation Committee in 2012 or who presently serve on the Compensation Committee has interlocking relationships as defined by the SEC or had any relationships requiring disclosure by the Company under the SEC's rules requiring disclosure of certain relationships and related party transactions.

Nominating & Governance Committee

The Nominating & Governance Committee assists the Board by identifying individuals qualified to become Board members, recommends to the Board the director nominees for the next annual meeting of stockholders, recommends to the Board the director nominees for each committee and develops, recommends to the Board and oversees the governance principles applicable to the Company. The Nominating & Governance Committee, currently consisting of Messrs. Bowes (Chairman), Hutt, Van Ness and Walbert, held 3 meetings during 2012. Each member of the Nominating & Governance Committee is "independent" as defined in the listing standards of NASDAQ. The Board has adopted a written charter for the Nominating & Governance Committee, a copy of which is available on the Company's website at www.xoma.com.

The Nominating & Governance Committee's charter provides that the committee will, on behalf of the Board, review letters from stockholders regarding the Company's annual meeting and governance process. Beyond this, the committee has no formal policy regarding consideration of director candidates recommended by stockholders, in large part because the Company has never received from any of its stockholders a recommendation of a director nominee with reasonably adequate qualifications. The need for a more formal policy was considered and determined to be unnecessary by the committee. The committee will consider candidates recommended by stockholders, and a stockholder wishing to submit a recommendation should send a letter to the Secretary of the Company at 2910 Seventh Street, Berkeley, California 94710. The mailing envelope must contain a clear notation indicating that the enclosed letter is a "Director Nominee Recommendation." The letter must identify the author as a stockholder and provide a complete listing of the candidate's qualifications to serve on the Board, the candidate's current principal occupation, most recent five-year employment history and current directorships and a statement that the proposed nominee has consented to the nomination, as well as contact information for both the candidate and the author of the letter. Stockholders may also nominate candidates who are not first recommended to the Nominating & Governance Committee by following procedures set forth in our by-laws.

To be considered by the Nominating & Governance Committee, a director nominee must have experience as a board member or senior officer of a company in the healthcare or other industries, have a strong financial background, be a leading participant in another field relative to the Company's business or have achieved national prominence in a relevant field as a faculty member, professional or government official. In addition to these minimum requirements, the committee seeks director candidates based on a number of qualifications, including their independence, knowledge, judgment, leadership skills, education, experience, financial literacy, standing in the community and ability to foster a diversity of backgrounds and views and complement the Board's existing strengths. The Board believes that diversity with respect to all of these factors is an important consideration in appropriate Board composition.

The Board and the Nominating & Governance Committee begin the process of identifying and evaluating director nominees by seeking recommendations from a wide variety of contacts, including current executive officers and directors and industry, academic and community leaders. The Board or the committee may retain a search firm to identify and screen candidates, conduct reference checks, prepare biographies for review by the

committee and the Board and assist in setting up interviews. The Nominating & Governance Committee and one or more of the Company's other directors interview candidates, and the committee selects, and recommends to the full Board, nominees that best suit the Company's needs.

Audit Committee

The Audit Committee is primarily responsible for approving the services performed by the Company's independent registered public accounting firm and reviewing the Company's accounting practices and systems of internal accounting controls. This committee held 6 meetings in 2012 and consisted of Messrs. Van Ness, Walbert (Chairman) and Wyszomierski. On May 24, 2012, Mr. Wyszomierski stepped down as Chairman of the Committee and Mr. Walbert was appointed Chairman by the Board on the same day. Each member of the Audit Committee is "independent" as defined in the listing standards of NASDAQ. The Board has determined that Mr. Wyszomierski is an "audit committee financial expert" as defined by the rules of the SEC. The Board has adopted a written charter for the Audit Committee, a copy of which is available on the Company's website at www.xoma.com.

In accordance with rules established by the SEC, the Audit Committee has prepared the following report for inclusion in this proxy statement:

As part of its ongoing activities, the Audit Committee has:

- met with management periodically to consider the adequacy of the Company's internal controls and the objectivity of its financial reporting, and discussed these matters with the Company's independent registered public accounting firm and with appropriate Company financial personnel;
- regularly met privately with the independent registered public accounting firm, who have unrestricted access to the committee;
- recommended the appointment of the independent registered public accounting firm and reviewed periodically their performance and independence from management;
- reviewed the Company's financing plans and reported recommendations to the full Board for approval and to authorize action;
- reviewed and discussed with management the Company's audited consolidated financial statements for the fiscal year ended December 31, 2012;
- discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, Communications with Audit Committees, as amended (AICPA AU Section 380), as adopted by the Public Company Accounting Oversight Board ("PCAOB") in Rule 3200T; and
- received the written disclosures and the letter from the independent registered public accounting firm required by PCAOB Rule 3526, Communication with Audit Committees Concerning Independence, and discussed with the independent registered public accounting firm their independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board that the audited consolidated financial statements be included in the 2012 Form 10-K.

ITEM 2—APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board, on the recommendation of its Audit Committee, recommends the appointment of Ernst & Young LLP (“Ernst & Young”) to serve as the Company’s independent registered public accounting firm for 2013. Ernst & Young has been acting as the Company’s independent registered public accounting firm since fiscal year 1998.

Audit Fees. The aggregate fees billed for each of the 2011 and 2012 fiscal years for professional services rendered by Ernst & Young for the audit of the Company’s annual financial statements, review of financial statements included in the Company’s Form 10-Q, services that are normally provided by Ernst & Young in connection with statutory and regulatory filings or engagements and for attestation services related to Sarbanes-Oxley compliance for those fiscal years were \$643,763 and \$593,980, respectively.

Audit-Related Fees. The aggregate fees billed for each of the 2011 and 2012 fiscal years for audit-related services rendered by Ernst & Young for audit-related were \$113,650 and \$239,962, respectively, excluding the services described in the preceding paragraph.

Tax Fees. The aggregate fees billed for each of the 2011 and 2012 fiscal years for products and services provided by Ernst & Young for tax compliance, tax advice and tax planning were \$42,800 and \$59,991, respectively.

All Other Fees. The aggregate fees billed for each of the 2011 and 2012 fiscal years for products and services provided by Ernst & Young other than the services reported in the three immediately preceding paragraphs were \$39,500 and \$1,995, respectively.

The Audit Committee considered whether the provision of the services covered in the four immediately preceding paragraphs of this section is compatible with maintaining Ernst & Young’s independence.

The Audit Committee’s policy is to pre-approve all audit and permissible non-audit services provided by the Company’s independent accountants. Pre-approval is generally provided for up to one year, is detailed as to the particular service or category of services and is generally subject to a specific budget. The committee may also pre-approve particular services on a case-by-case basis. In assessing requests for services by the independent accountants, the committee considers whether such services are consistent with the auditor’s independence, whether the independent accountants are likely to provide the most effective and efficient service based on their familiarity with the Company, and whether the service could enhance the Company’s ability to manage or control risk or improve audit quality. The committee has delegated pre-approval authority to its chairman, who must report any decisions to the committee at its next scheduled meeting.

The recommendation to appoint Ernst & Young is being submitted to the stockholders at the annual meeting. If such appointment is not made, the Board will consider other independent registered public accounting firms for appointment. The Board recommends voting **“FOR”** the appointment of Ernst & Young as the Company’s independent registered public accounting firm for the 2013 fiscal year.

A representative of Ernst & Young is expected to be present at the meeting with an opportunity, if desired, to make a statement and to respond to your questions.

COMPLIANCE WITH SECTION 16(a) OF THE SECURITIES EXCHANGE ACT OF 1934

Section 16(a) of the Exchange Act requires the Company's executive officers and directors to file initial reports of ownership and changes in ownership with the SEC and NASDAQ. Such executive officers and directors are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file. Based on a review of the copies of the forms furnished to the Company and written representations from the Company's executive officers and directors, all persons subject to the reporting requirements of Section 16(a) filed the required reports with respect to 2012 on a timely basis.

TRANSACTIONS WITH RELATED PERSONS

There were no reportable transactions with related persons during 2012. The Company or a subsidiary of the Company may occasionally enter into transactions with certain related persons, such as executive officers, directors or nominees for directors of the Company, their immediate family members or beneficial owners of more than 5% of the Company's outstanding Common Stock, in which the related party has a direct or indirect material interest. Each such transaction is subject to review and pre-approval by the Audit Committee.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for Notices of Internet Availability of Proxy Materials or other annual meeting materials with respect to two or more stockholders sharing the same address by delivering a single Notice of Internet Availability of Proxy Materials or other annual meeting materials addressed to those stockholders. This process, which is commonly referred to as "householding," potentially means extra convenience for stockholders and cost savings for companies.

This year, a number of brokers with account holders who are XOMA stockholders will be "householding" the Company's proxy materials. A single Notice of Internet Availability of Proxy Materials will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stock-holders. Once you have received notice from your broker that they will be "householding" communications to your address, "householding" will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in "householding" and would prefer to receive a separate Notice of Internet Availability of Proxy Materials, please notify your broker or XOMA. Direct your written request to the Company's principal office, at 2910 Seventh Street, Berkeley, California 94710, Attention: Secretary. Stockholders who currently receive multiple copies of the Notices of Internet Availability of Proxy Materials at their addresses and would like to request "householding" of their communications should contact their brokers.

OTHER MATTERS

The Board does not know of any matters to be presented at this annual meeting other than those set forth in this proxy statement and in the notice accompanying this proxy statement. If other matters should properly come before the meeting, it is intended that the proxy holders will vote on such matters in accordance with their best judgment.

It is important that your shares of Common Stock be represented at the meeting, regardless of the number of shares of Common Stock which you hold. You are, therefore, urged to promptly vote your proxy by accessing the Internet, via a toll-free telephone number as instructed in the Notice, or if you have elected to receive a paper copy of the proxy materials, by completing, signing and returning the proxy card that is provided.

STOCKHOLDER PROPOSALS AND OTHER COMMUNICATIONS

A stockholder who intends to present a proposal at the 2014 meeting of stockholders must submit such proposal to the Company by December 12, 2013 for inclusion in the Company's 2014 proxy statement and proxy card relating to such meeting. The proposal must be mailed to the Company's principal office, at 2910 Seventh Street, Berkeley, California 94710, Attention: Secretary and must comply with all applicable requirements of Rule 14a-8 promulgated under the Exchange Act. A stockholder who intends to submit a proposal that is not to be included in next year's proxy materials, but that may be considered at the annual meeting of stockholders to be held in 2014, must do so in writing following the above instructions not earlier than the close of business on January 26, 2014 and not later than the close of business on February 25, 2014. We advise you to review our bylaws, which contain additional requirements about advance notice of stockholder proposals and director nominations, including the different notice submission date requirements in the event our annual meeting for 2014 is held more than 30 days before or 60 days after May 23, 2014. The section titled "Nominating & Governance Committee" in this proxy statement provides additional information on the director nomination process.

For all other stockholders communications with the Board or a particular director, a stockholder may send a letter to the Company's principal office, at 2910 Seventh Street, Berkeley, California 94710, Attention: Secretary. The mailing envelope must contain a clear notation indicating that the enclosed letter is a "Stockholder-Board Communication" or "Stockholder-Director Communication." The letter must identify the author as a stockholder and clearly state whether the intended recipients are all members of the Board or just certain specified individual directors.
