**XOMA Highlights Recent Royalty Asset Portfolio Developments and**

**Reports Third Quarter 2020 Financial Results**

*Company recently earned a \$25 million milestone payment as NIS793 advanced to Phase 2 development in advanced pancreatic cancer*

*An undisclosed partner entered Phase 2 development, triggering a \$0.5 million milestone*

*Rezolute's financing resulted in accelerated \$1.4 million payment*

*Two partners presented early stage data at scientific conferences*

*Acquired royalty interest in four lysosomal storage disorder enzymes being developed by Chiesi Group*

*Additional partner-funded assets advanced to next stages of clinical development, even though clinical trial enrollment across the industry remains challenging due to the COVID-19 pandemic*

**EMERYVILLE, Calif., November 5, 2020 (GLOBE NEWSWIRE)** – XOMA Corporation (Nasdaq: XOMA), today announced recent royalty asset portfolio advancements and its third quarter 2020 financial results.

“Our partners continue to make advances in their missions to bring new therapies to patients in need. Recently, two separate partners dosed the first patients in their respective Phase 2 studies – Novartis with NIS793, an anti-TGFβ monoclonal antibody, in patients with metastatic pancreatic cancer, and one undisclosed partner’s Phase 2 trial in an undisclosed indication. These two events resulted in our earning a combined \$25.5 million in milestones, and a portion of the \$25 million Novartis milestone will be applied to reduce our Novartis debt obligation to less than \$10 million,” stated Jim Neal, Chief Executive Officer at XOMA. “Another three partners announced the initiation of Phase 2 studies in the third quarter – Bayer’s osocimab CONVERT study in patients with kidney failure requiring hemodialysis, Rezolute’s RZ358 study in congenital hyperinsulinism, and Incyte’s triple combination therapy study in select advanced malignancies. Additionally, the medical community received its first look at early data from two assets in our portfolio, Merck’s MK-4830 and Alligator/Janssen’s mitazalimab (anti-CD40 mAb), via presentations at medical conferences over the summer.

“We were pleased to learn Rezolute completed a sizable fundraise that attracted high-quality investors. Their successful financing resulted in the accelerated payment of \$1.4 million to XOMA,” Mr. Neal continued. “On the royalty interest acquisition front, we exercised our option to acquire the royalty rights associated with the enzymes being investigated as potential treatments for four lysosomal storage disorders under Bioasis’ strategic alliance with Chiesi Group. This basket of enzymes expands our portfolio beyond monoclonal antibodies and small molecules and adds another four assets to our potential milestone and royalty portfolio of 65-plus disclosed and undisclosed assets.”

---

## Financial Results

XOMA recorded total revenues of \$0.6 million for the third quarter of 2020, compared with \$8.9 million in the third quarter of 2019. The decrease for the three months ended September 30, 2020, as compared to the corresponding period of 2019, was primarily due to \$6.0 million recognized under the Rezolute agreement and \$2.5 million recognized under the Janssen license agreement in the third quarter of 2019.

Research and development expenses were \$0.03 million for the third quarter of 2020, compared to \$0.1 million for the third quarter of 2019. The decrease of \$0.1 million for the three months ended September 30, 2020, compared to the same period of 2019, was due to a \$0.1 million decrease in salary and related expenses as a result of the recategorization of employees to department codes mapped to general and administrative expenses.

General and administrative (“G&A”) expenses were \$3.2 million for the third quarter of 2020, compared to \$5.8 million for the third quarter of 2019. The decrease of \$2.6 million between the corresponding periods of 2020 and 2019 was primarily due to a \$1.3 million decrease in salary and related expenses and a \$0.9 million decrease in facilities costs.

In the third quarter of 2020, G&A expenses included \$0.7 million in stock-based compensation, which is a non-cash expense. The Company’s net cash used in operations was \$2.4 million.

In the third quarter of 2020, XOMA recorded \$0.4 million in total interest expense, as compared to \$0.5 million in the corresponding period of 2019, both of which reflect the Company’s outstanding loan balances with Silicon Valley Bank (SVB) and Novartis.

Net loss for the third quarter of 2020 was \$1.1 million, compared to net income of \$3.2 million for the third quarter of 2019.

On September 30, 2020, XOMA had cash of \$45.7 million. The Company ended December 31, 2019, with cash of \$56.7 million. Since September 30, 2020, XOMA has earned \$25.5 million, including debt reduction, from its partners. The Company continues to believe its current cash balance will be sufficient to fund XOMA’s operations for multiple years.

## About XOMA Corporation

XOMA has built a significant portfolio of products that are licensed to and being developed by other biotechnology and pharmaceutical companies. The Company’s portfolio of partner-funded programs spans multiple stages of the drug development process and across various therapeutic areas. Many of these licenses are the result of XOMA’s pioneering efforts in the discovery and development of antibody therapeutics. The Company’s royalty-aggregator business model includes acquiring additional licenses to programs with third-party funding. For more information, visit [www.xoma.com](http://www.xoma.com).

### Forward-Looking Statements/Explanatory Notes

Certain statements contained in this press release are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding the potential of XOMA's portfolio of partnered programs and licensed technologies generating substantial milestone and royalty proceeds over time, creating additional value for the stockholders, cash sufficiency forecast, economic outlook, and potential impact of the COVID-19 pandemic. These statements are based on assumptions that may not prove accurate, and actual results could differ materially from those anticipated due to certain risks inherent in the biotechnology industry, including those related to the fact that our product candidates subject to out-license agreements are still being developed, and our licensees may require substantial funds to continue development which may not be available; we do not know whether there will be, or will continue to be, a viable market for the products in which we have an ownership or royalty interest; if the therapeutic product candidates to which we have a royalty interest do not receive regulatory approval, our third-party licensees will not be able to market them, and the impact to the global economy as a result of the COVID-19 pandemic. Other potential risks to XOMA meeting these expectations are described in more detail in XOMA's most recent filing on Form 10-K and in other SEC filings. Consider such risks carefully when considering XOMA's prospects. Any forward-looking statement in this press release represents XOMA's views only as of the date of this press release and should not be relied upon as representing its views as of any subsequent date. XOMA disclaims any obligation to update any forward-looking statement, except as required by applicable law.

EXPLANATORY NOTE: Any references to "portfolio" in this press release refer strictly to milestone and/or royalty rights associated with a basket of drug products in development. Any references to "assets" in this press release refer strictly to milestone and/or royalty rights associated with individual drug products in development. References to royalties or royalty rates strictly refer to future potential payment streams regardless of whether or not they are technically defined as royalties in the underlying contractual agreement; further, any rates referenced herein are subject to potential future contractual adjustments.

As of the date of this press release, all assets in XOMA's milestone and royalty portfolio are investigational compounds. Efficacy and safety have not been established. There is no guarantee that any of these assets will become commercially available.
